POMPON DAHLIAS

The demand for Pompon Dahlias has greatly increased in recent years, because they are almost indispensable for small decorations, and have many uses where the larger varieties would be out of the question. They come in almost all colors, bloom very freely, and have excellent keeping qualities.

25 Cents Each

(or \$2.50 per Dozen in Assorted Colors—Our Selection)

AMBER QUEEN: Amber, shaded apricot.	ISABEL: Bright vermillion.
ARIEL: Deep orange buff.	JESSICA: Yellow edged red.
EARNEST HARPER: Coral red.	JOE FETTI: Pure white, the very best.
EUNICE: Flesh pink and lavender.	JOHNNIE: Crimson maroon.
DARKEST OF ALL: Maroon, almost black.	LASSIE: Old rose.
GOLDEN QUEEN: Golden yellow.	LITTLE BEESWING: Cherry red shaded amber. Very beautiful.
GRAFIN ANNA VON SCHWERIN: Light pink, shading to white center.	PHOEBE: Orange red, with yellow base.
GRETCHEN HEINIE: Blush white, heavily tipped with rose.	SKEEZIX: Lavender pink, very small.
HEDWIG POLWEG: Red and white variegated.	SUNNY DAYBREAK: Yellow tipped orange.
IOLANTHE: Beautiful shade of copper and amber.	SUNSET: Clear orange; a beauty.
YELLO BEM: Pure yellow of excellent form. The best of yellows.	YELLO BEM: Pure yellow of excellent form. The best of yellows.

The following pages contain a list of Dahlias in which will be found the choicest varieties grown, and they vary from the tiniest Pompon an inch or less in diameter to the great, gorgeous decorative beauties. They represent the best to be found in these classes. Decorative (D) Peony-flowered (P), Cactus (C), Hybrid-cactus (H C), Show (S), Collarette (Col.).

ALMA LORRAINE (D)—A most beautiful dahlia immense in size. Flowers are held on the tip of the stem, facing the sky like a huge water lily. Exceptionally long, rigid stems. A perfect cut flower type, having all the good qualities demanded of such types. For exhibition purposes, none better. The color is a beautiful deep old rose shading to a deep pink; a color combination that is rare among flowers. We highly recommend this Dahlia of Merit 5.00

AMUN RA (D)—Also called The Egyptian Sun God. Outer petals are copper and orange deepening to a rich reddish bronze. The large blossoms greatly resemble a gigantic water lily in formation. A prize winner at many shows..... .75

***AUTUMN GLORY (D)**—A beautiful shade of orange buff; petals slightly curled with a reflex of neon rose. The large blossoms are produced freely on long, stiff stems. An excellent cut flower and exhibition variety. A new 1930 introduction that we highly recommend. An exceptionally large growing variety..... 5.00

BOB PLEUSE (H C)—Deep crimson, each petal tipped white. Very large and of unusual attractiveness. One of the most admired Dahlias. A profuse bloomer with an ideal stem. Wonderful exhibition variety. Awarded many prizes. Very fine..... .50

Dahlias marked * originated by Seattle Dahlia Gardens.
Largest Growers of Cut Flower Varieties in the West.

BUTTERFLY (D) —Pinkish salmon on the outer edges, shading lighter toward the center that finally reaches a delicate cream. The most outstanding cut Dahlia on the market. A Dahlia of real merit and winner of many prizes. Worth twice the price.....	1.00
B. P. O. E. (S) —An attractive shade of true purple. A most satisfactory florists' flower because of its keeping qualities and good stem. A 1929 prize winner.....	2.50
CAMILLE FRACHON (P) —An intense glistening red deepening to a rich garnet. Habit of growth is ideal. One that will attract attention wherever shown.....	1.00
* CAMPFIRE (P) —A very striking combination of scarlet and gold that attracts attention immediately. Stem is long and stiff. A new 1929 introduction. Stock limited.....	2.00
CARDINAL GEM (C) —A beautiful cardinal red cactus, petals standing out as rays of the sun shoot out. Stems are firm holding the blooms erect. Flowers are of medium size keeping exceptionally well when cut. A new and recent prize winner at the Pasadena Horticulture Show in 1929. A flower with a future.....	1.00
* COL. CHAS. LINDBERGH (H C) —A deep rich velvety maroon; flowers are held high above the foliage on long stiff stems; excellent for exhibition and as a cut flower; good keeper and free blooming. A new 1929 Blue Ribbon winner; no garden would be complete without this Dahlia of merit.....	2.50
DADDY BUTLER (H C) —The many petals are perfectly rolled. The color is of the American Beauty rose shades, or rosy carmine, reverse lighter tint. Stem is perfect and a most profuse bloomer. Excellent as a cut flower and exhibition variety.....	.50
* DR. WALTER CUSTER (H C) —An exceptionally large variety in this type. Color is scarlet, heavily tipped gold. Blooms are produced freely on the best of stems. A Dahlia of real merit. A new 1929 introduction easily worth twice the price.....	5.00
EAGLE ROCK SUNSHINE (H C) —An enormous flower of a clear rich yellow. The huge flowers are held perfectly erect on strong upright stems. An exceptionally fine exhibition variety either for the show or in the garden.....	1.00
EL CAMINO REAL (D) —A gorgeous velvety Spanish crimson in color. Strikingly magnificent in its regal beauty. Enormous in size, commonly 10 inches in diameter, with a depth of two to three inches. This Dahlia is admired by all.....	1.00
* ELSIE WEST (D) —The immense blossoms are crimson red in color; the plants are exceptionally vigorous, producing the huge blooms freely on long rigid stems. Unlike many dahlias that diminish their size as the season advances, we can truthfully say the Elsie West retains its perfect formation and size throughout the season. An ideal exhibition variety for the garden and show. A real gem and Dahlia of merit.....	5.00
* ETHEL MAY NELSON (D) —A most beautiful orchid flower with a faint suffusion of pink. The immense blossoms are held erect on stems 2 to 3 feet above the foliage. Exceptionally prolific; unexcelled as a cut flower or for exhibition purposes. A new 1930 Dahlia of Merit that will be constant joy in your garden.....	5.00
FLAMING METEOR (D) —The color of this beauty is the liveliest flame imaginable. A very prolific bloomer; stems are perfect. Will create a sensation wherever it is shown. Its prize winnings are legion. No collection complete without this Blue Ribbon winner. Easily worth twice the price. We highly recommend this beauty.....	1.00
FORT MONMOUTH (H C) —A gigantic, long-petaled flower of spectacular rich claret, with a brightness unusual in red dahlias. Of immense size and wonderful formation, the bloom is held on a stiff stem over a strong-growing bush. Very free flowering and keeps well when cut. You are sure to be pleased with Fort Monmouth.....	5.00
* FRANCIS WILLIAMS (D) —The color is a rosy pink with a lavender sheen. An excellent cut flower and exhibition variety. A 1929 introduction and Blue Ribbon winner.....	2.50
GALLI-CURCI (D) —A curly petaled flower of extreme grace and charm, very beautiful in color, a rich salmon-orange, intensified with tints of gold. Blossoms are extremely large. Created a sensation throughout the East and West.....	5.00
GOLDEN WEST (H C) —One of the very best of its type. Has extra long stems, graceful and wiry. Old gold in color. Should be in every garden.....	.50
GOLDEN EMBLEM (D) —Huge flowers of a clear, rich, golden color. The petals are long and wavy giving the flower a very artistic appearance that is most attractive. A splendid cut flower as well as exhibition type.....	1.00
GRAND MATRON (D) —A beautiful deep mauve pink flower of fine habit.....	2.50
HARRIET THOMPSON (D) —A brilliant orange buff with a reflex of Orient red. Excellent as an exhibition variety.....	1.50
* ISABEL SCANLON (D) —In color a vivid sparkling red, the plant is a vigorous grower continually in bloom. Flowers are extra large. A Blue Ribbon winner.....	2.00
JEAN KERR (D) —A free blooming variety of dwarf habit; pure snowy white in color; a good cut flower exceptionally fine for bouquets in the home. Peer of all whites.....	.50
JERSEY'S BEAUTY (D) —A perfect bloom of an exceedingly live, deep, pink, carried high above the foliage on perfect stems. Awarded Sweepstakes in 1928 and 1929.....	.50
JERSEY'S JEWEL (H C) —Mallow pink flowers of immense size. Excellent for exhibition....	1.00
J. W. DAVIES (D) —A fine bright purplish rose shading to a deep cerise in center. Has every good quality a Dahlia should have. You will like it as others do.....	.50

How to Grow Dahlias and Care for Them

Dahlias are exceedingly easy to grow, but require an open, sunny location for best results. To produce the finest plants, soil should be prepared several weeks before planting time, by spading in well-rotted manure, or other fertilizer.

After all danger of frost is past, again spade up the ground as deep as possible. Have on hand sufficient stakes 1 x 1½ inches by five feet in length for your needs and drive at least 18 inches in the ground, three or four feet apart each way. Next, dig a hole at each stake from four to six inches deep, according to the nature of the soil (deeper for light soils and shallower for heavy soils). Place tubers about two inches from the stake with the eye up. Never stand the tuber on end. Cover the tuber with the soil lightly about three inches and as the sprout grows, gradually fill up the hole. Do not water the tubers immediately after planting; soil should be moderately damp (not wet), as too much moisture at this time is dangerous for the tubers. Later on when plants commence to form flowering buds, ground should be thoroughly watered at least once a week.

Training the Plant

If several sprouts appear above the ground, remove all except one or two from each plant. When they are sufficiently above the ground to show three or four sets of leaves, pinch out the center stem above these sets. This will cause branches to grow from the laterals and produce a strong, bushy plant. Tie plants to the stakes to avoid being broken down by wind or other causes.

Cultivation and Disbudding

Soil should be kept loose around the young plants; after each rain or irrigating, they should be cultivated to keep the ground in good condition and prevent the growth of weeds. Later in the season, when the fine silky roots come near the surface, cultivation must be abandoned.

Flower buds are produced in threes; when these appear, remove the two side buds leaving the center bud remain on the tip of the stem. Next, remove the laterals which are forming "bud-like" between the set of leaves and stem below the flower bud; these laterals should be removed down two sets of leaves. By this method you will have finer flowers in a larger quantity. From the time Dahlias appear above the ground they should be sprayed at least once a week until plant is six weeks old against insect pests, such as Thrip and Aphis, using Nicotine Sulphate 40%, one teaspoonful to one gallon of water; add to this a solution of soap powder or dissolved soap (whale oil soap preferred), enough to make the mixture slightly soapy. Apply with a sprayer both on top and under the foliage of the plant.

Digging and Dividing the Clumps of Tubers

After frost has killed the plants cut off the tops. Next, with a sharp spade cut around the plant about a foot from the main stalk; insert the spade deeply under the clump and gently lift out the clump so as to avoid breaking long tubers. Wash off all soil from the clumps with a hose, being careful not to break the thin necks of the tubers. Divide the tubers from the clump by cutting with a sharp knife a portion of the main stalk connecting to the tuber; the eyes, or sprouts, are located at this junction, called crown. Tubers that have no eye at this junction, or crown, will not grow, only those tubers having eyes and unbroken necks should be saved for next year's planting. After dividing clumps, all cut portions, or surfaces, should be dipped in hydrated lime, or sulphur; this will tend to neutralize acid that may form on the cut parts due to bleeding. Let tubers air out for one or two days until all surplus moisture has dried off (keeping under shelter at night to keep from freezing). The tubers may now be packed in boxes, in layers of either sand or sawdust, whichever used must be absolutely dry. Store in a cool dry place away from freezing.

Should we be able to assist you with other Dahlia information, kindly phone, call, or write, and we will gladly do so. Your satisfaction is our success.
